

TreesForLife

Trees For Life restores and protects South Australian landscapes and empowers people to take action for our bushland, farmland and urban landscapes. Over 40 years we have grown native seedlings across every region of South Australia and have more than 20 dedicated carbon sites that offset 124,000 tonnes of emissions.

Certificate

Feathermark Photography

Has cumulatively purchased 64 Trees For Carbon and 614 Trees For Habitat.

Native trees have been planted to help beautify the landscape, reduce erosion and salinity, absorb carbon and provide vital habitat and shelter for wildlife.
